Dear Ms. Marconi:

Re: EB-2024-0063 – Generic Proceeding to Consider Cost of Capital Parameters and Deemed Capital Structure.

Customer Intervenor Sponsored Evidence.

We write on behalf of our client, the Industrial Gas Users Association (IGUA) to advise the OEB of IGUA's intention to file expert evidence in this proceeding, subject to what follows.

We also write on behalf of a group of customer intervenor representatives to advise the OEB of ongoing discussions among this group regarding the potential for, and potential scope of, jointly sponsored evidence, subject to a request made on behalf of these customer intervenors for a modification of the procedural sequence of this matter in support of co-operation and co-ordination among us. In this respect we write on behalf of¹ AMPCO, CCC, CME, IGUA, SEC and VECC.

IGUA Retainer of Dr. Sean Cleary

IGUA has retained Dr. Sean Cleary, a Professor of Finance at the Smith School of Business, Queen's University, to provide evidence on application of the fair return standard and associated analyses to reviewing and determining the cost of capital parameters, including capital structure, for Ontario's regulated energy utilities.

Dr. Cleary provided evidence on equity thickness in Enbridge Gas Inc.'s (EGI) recently completed 2024 rebasing and IRM application [EB-2022-0200], which we believe the Hearing Panel and other parties in that case found of assistance in its deliberations. Dr. Cleary is Chair of the Institute for

¹ Association of Major Power Consumers in Ontario (AMPCO), Consumers Council of Canada (CCC), Canadian Manufacturers and Exporters (CME), IGUA, School Energy Coalition (SEC) and Vulnerable Energy Consumers Coalition (VECC).

Sustainable Finance² based at the Smith School, and is a member of Canada's 2023 Clean50³. He is the founding Academic Director of the Master of Finance program at Smith School, holds a Ph.D. in finance from the University of Toronto and is a CFA charter holder. He is a current member of the CFA Society and the Atlantic Canada CFA Society (where he served as President). Dr. Cleary has authored 14 finance textbooks and has published more than 30 research articles, including several in top tier finance journals. His publications have been cited over 5,600 times⁴ and he has received several major research grants. He is an Associate Editor for two finance journals and frequently serves as a reviewer for many of the top finance journals.

Dr. Cleary regularly serves as an expert witness on cost of capital and capital markets. He has on several occasions provided evidence on cost of capital matters before the Alberta Utilities Commission and the Newfoundland Public Utilities Board sponsored by the consumer advocates in those provinces. Dr. Cleary is familiar with the cost of capital work of Mr. Coyne of Concentric Energy Advisors who has been retained in this review by the Ontario Energy Association (OEA) on behalf of Alectra Utilities, Elexicon Energy, EGI, Hydro One, Hydro Ottawa and Toronto Hydro, and has provided his counter-perspective on such work in these previous regulatory proceedings, as warranted. IGUA submits that Dr. Cleary's participation would ensure a robust and balanced evidentiary record on this important topic in support of the Board's deliberations and decision.

Dr. Cleary's curriculum vitae is attached to this letter.

The scope of Dr. Cleary's work, and an associated budget, remains subject to the ongoing discussions among customer intervenor representatives that is further addressed in the balance of this letter.

Ongoing Discussions Among Customer Intervenor Representatives

As noted above, at the same time that IGUA has retained Dr. Cleary, IGUA has participated in discussions with representatives from AMPCO, CCC, CME, SEC and VECC in respect of co-operative and/or joint sponsorship of customer centric cost of capital expertise in this process. While IGUA's organizational interest is centered on natural gas, the other customer intervenors' interests span both gas and power utilities.

Through several discussions among these parties it has become clear to us that the confirmation of co-operative and/or joint retainer of customer centric cost of capital expertise, and the scoping of such an expert (or experts), is very difficult pending receipt and review of the report from London Economics International (LEI) that is being advanced by OEB Staff and which is intended to be a "straw proposal" to comment on and adduce evidence in response to. Defining such scope, and in the result coordinating among a group of intervenors and resolving the commercial arrangements associated with such coordination (both the commercial arrangements with the expert(s) and with the counsel/consultants tasked with representing the group in respect of the expert(s)) is difficult

absent a more complete view on what issues are likely to be contentious in this proceeding as a result of the views advanced in the LEI report to be filed by June 21, 2024.

Accordingly, on behalf of these 6 customer groups (including IGUA), we request that the OEB consider revising the procedural sequence of events in this matter such that we (and other parties) would be able to finalize, and inform the Board of, plans to file expert evidence in this proceeding following receipt and review of LEI's report. We anticipate that we would be able to so inform the Board within 2 weeks of receipt of the LEI report, and in turn that any proposed customer sponsored expert report(s) could be filed 2 months thereafter.

We appreciate that this proposal would require alteration (delay) of subsequent steps and associated dates, and do not make such request lightly. Nonetheless we respectfully submit that such an adjustment would result in a more co-ordinated, efficient, and informative process, in support of the OEB's overarching objectives towards regulatory efficiency and effectiveness in general, and intervenor co-ordination in particular in support of such outcomes in particular. We also note that there does not appear to be any particular time constraint related to this process, and so the additional time that our request would entail should not disrupt the Board's regulatory agenda nor prejudice any party (apart, of course, from the Board's need to reschedule a sequence of hearing dates which, we appreciate, is not always a straight forward exercise).

Alternative Relief

Should the Board decline to grant the revision to its schedule for this proceeding that we have suggested above on behalf of these 6 customer intervenors, in the alternative we request that the OEB allow us all an extension to a date which is 1 week from the Board's response to this request to revisit our discussions on co-operative/joint sponsorship of evidence and advise the OEB of any resulting individual or co-operative plans for proceeding with Dr. Cleary's evidence and any additional evidence that any one or more of us may propose.

Yours truly,

Ian A. Mondrow
